

APCB 2023 – SCIENTIFIC PROGRAMME (26th-28th MAY 2023)

ADULT/PAEDIATRICS PROGRAMME								
TIME	26 th May	27 th May			28 th May			
0730-0800	OPENING CEREMONY, announcement of video festival winners and launching of the IP Book 'A Case-Based Approach to Interventional Pulmonology: A Focus on Asian Perspectives'							
	Room 1	Room 2	Room 3 (Paediatrics)	Room 1	Room 2	Room 3 (Paediatrics)	Room 1	Room 3 (Paediatrics)
0800-0915	Early Lung Cancer Diagnosis: SPN 1. Lung Nodule Management: Radiologist's Perspective- Zuhani Abdul Hamid, Malaysia 2. Manual airway mapping planning: how I do it- Tu Chih Yen, Taiwan 3. Ultrathin Bronchoscopy: How to Maximise its Potential in the Diagnosis of Peripheral Lung Lesion- Masahide Oki, Japan	Industry sponsored symposium Lung cancer 1. Drugs talk 2. Rebiopsy in lung cancer	Symposium: Basic Bronchoscopy 1 Setting up flexible bronchoscopy services in paediatrics – Mariana Daud, Malaysia Normal and variants anatomy of upper airways– TBC Normal and variants anatomy of lower airways – Rahul Thomas, Australia	Benign Central Airway Obstruction (CAO) 1. Approach to Benign CAO -Kim Ho Joong, South Korea. 2. Subglottic stenosis: - Jamsak Tscheikuna, Thailand. 3. Airway stent: recent advancement: Herve Dutau, France	Industry sponsored symposium Single use bronchoscope (Pentax)	Symposium: Diagnostic Bronchoscopy Bronchoscopy in chronic cough – Eg Kah Peng, Malaysia Bronchoscopy in tracheo-oesophageal fistula- Brent Masters, Australia Bronchial brushing and endobronchial biopsy in paediatrics – Anxia Jiao, China	Bronchoscopic Tumor Ablation 1. Transthoracic Cryoablation for Lung Cancer: National Cancer Institute Experience- Ridzuan Abdul Rahim, Malaysia 2. Transbronchial Microwave Ablation of Lung Tumours- Calvin Ng, Hong Kong 3. Surgery versus ablation for early lung cancer: Soon Sing Yang, Malaysia	Symposium: Airway Anomalies & Difficult Airway Congenital/acquired airway anomalies – Brent Masters, Australia Airway assessment in vascular ring- Rahul Thomas, Australia Paediatric ENT intervention in upper airway anomalies - TBC Endoscopic treatment in tracheobronchial diseases - Mohammad Ashkan Moslehi Shiraz, Iran
0915 - 1030	Mediastinum: Diagnosis and Staging 1. Conventional TBNA vs EBUS TBNA in the diagnosis of mediastinal pathologies. J Dalupang, Philippines 2. EBUS - guided transbronchial mediastinal cryobiopsy-Harikishan, India 3. Role of EUS-B in pulmonary practice –	Industry sponsored symposium ILD 1. Drug talk 2. Transbronchial lung cryobiopsy for ILD	Interventional Procedures in COPD and Asthma 1. Optimizing patient selection in BLVR in COPD - Eric Daniel Tenda, Indonesia 2. IP in COPD: - Rick Sue, USA 3. Bronchial thermoplasty in the age of biologics: Dinosaur or phoenix? Prof Frank Tien, Australia.	Case based discussion 5 (Ng Khai Lip): Interesting/Challenging cases of medical thoracoscopy Chair: 1. Singapore, Lee Pyng: Topic TBC 2. Sabah, Huan NC: Dry pleuroscopy 3. Kedah, Arvind: Adhesiolysis for CPPE	Bronchoscopy in haemoptysis –Hari Kishan, India Transbronchial lung biopsy in paediatrics- Anxia Jiao, China	SPN: The Promise of Advanced Technologies in the Diagnosis of peripheral lung lesions 1. Navigational bronchoscopy, augmented fluoroscopy and cone beam CT-does it promise a good return? - Lam Bing, Hong Kong 2. Cryobiopsy for peripheral lung lesions: worth the risk? - H Saka, Japan	Open surgical treatment for tracheal anomalies – Zakaria Zahari, Malaysia Difficult Intubation: A Paediatric Intensivist's Perspective – Anis Siham Zainal Abidin, Malaysia	

	Stefano Gasparini, Italy/H Saka, Japan (TBC)				4. India, Harikishan: Pleural mass resection during rigid thoracoscopy		3. Robotic bronchoscopy: are we there yet? – Kyle Hogarth, USA	
1030 – 1100	Tea (Poster viewing)							
-1100 – 1215	Malignant Central Airway Obstruction (CAO) 1. Debulking and Stenting in Malignant CAO: How I do it – H Saka, Japan 2. Photodynamic and other modalities for malignant central airway tumor-Adnan Majid, USA (via Zoom) 3. Airway surgery for primary tracheal tumours: Vu Huu Vinh, Vietnam	Industry sponsored symposium Asthma 1. severe asthma and role of biologics 2. Bronchial thermoplasty- Malaysian experience - Jamalul	Symposium: Basic Bronchoscopy 2 Anaesthesia and sedation in paediatric bronchoscopy – Ina Ismiarti Shariffuddin, Malaysia Bronchoscopic and non-bronchoscopic bronchoalveolar lavage: Indications and interpretation – Su Siew Choo, Malaysia Bedside flexible bronchoscopy in the NICU/PICU setting – TBC	Interventional Pulmonology in Tuberculosis 1. TB stenosis: the pathophysiology and timing of intervention- Kim Ho Joong, South Korea. 2. Bronchoscopic Intervention for TB Stenosis – Wahju Aniwidyaningsih, Indonesia. 3. Airway Surgery for TB Stenosis- Vu Huu Vinh, Vietnam	Oral presentation (H Dutau, Kyle Hogarth)	Symposium: Foreign Body Malaysian experience in foreign body removal – Dayang Zuraini Sahadan, Malaysia Techniques and tricks in foreign body removal – Mohammad Ashkan Moslehi Shiraz, Iran Role of cryotherapy in foreign body removal - Tinku Joseph, India	Interstitial Lung Disease (ILD) 1. Lung Biopsy in ILD: Indication vs Justification - Felix Chua, UK (via Zoom) 2. Bronchoscopic Cryobiopsy for ILD: Technical Aspect and Its Place in Current Guidelines- Alvin Ing, Australia-Zoom 3. Pathologist role in optimizing specimens in ILD, Adam Malik, Malaysia	Symposium: The Future of Paediatric Bronchoscopy Paediatric bronchoscopy journey in Malaysia- Rus Anida Awang, Malaysia The future of diagnostic and interventional bronchoscopy in paediatrics – Brent Masters, Australia Training programme in Paediatric Interventional Pulmonology – Mohammad Ashkan Moslehi, Iran
1215 – 1300	Approach to Pleural Effusion 1. Recent advances in thoracoscopy: Lee Pyng, Singapore 2. Pleural infection: MT vs fibrinolytic: Data and Practice-Faisal, Malaysia 3. USG guided pleural biopsy and nerve block in pleural interventions: Syed Ajmal, UK	Industry sponsored symposium IPC 1. IPC – How I do it 2. IPC in MPE 3. Complications of IPC	Paediatric rigid bronchoscopy: Do's and Don'ts - Saraiza Abu Bakar, Malaysia	Persistent air leak 1. Bronchoscopic approach to Prolonged Air Leak- Kyle Hogarth, USA 2. Surgical management of prolonged air leak- Calvin Ng 3. Diagnosis and Management of Airway Fistula- Jamsak Tscheikuna, Thailand	Massive hemoptysis 1. Vascular embolization for life threatening hemoptysis, what the pulmonologist should know: Dhayal 2. Bronchoscopic approach for massive hemoptysis- Ravindra Mehta, India. 3. Role of surgery in life threatening haemoptysis: Dato Arif, Serdang, Malaysia	Oral Paper presentation	Price giving ceremony: oral and poster. Closing ceremony & Flag handing over to the next host	

1300-1400	Lunch (Poster viewing)							
1400 - 1515	Case Based Discussion 1 (Kho SS): SPN and mediastinal staging for lung cancer: Chair: H Saka, Stefano Gasparini (TBC) 1. SPN case: Kuching, Malaysia: Kho Sze Shyang. 2. SPN case: Thailand: Titiwart Sriprasart. 3. TBNC case: Sabah, Malaysia: Hema 4. EUS-B case: NUS, Singapore: Jeffrey Ng	Hands on Workshop (Kumaresh, Eric Daniel Tenda, Indonesia, Herve Dutau) 1. Linear EBUS and EUS 2. Radial EBUS 3. rigid and flexi-rigid pleuroscopy. 4. Rigid bronchoscopy and stent 5. Cryo, APC, Electrocautery *Hands-on workshops will be conducted using 3D-printed mannequins	Hands On Workshop Flexible bronchoscopy – Brent Masters/Su Siew Choo Rigid bronchoscopy – Mohammad Ashkan/Mariana Rigid bronchoscopy – Saraiza/Eg Kah Peng BAL techniques – Rahul Thomas/Dayang Zuraini	Case based discussion 3. TB Stenosis (Mona Zaria)-Chair: Kim Ho Joong, Wahju Aniwidyarningsih 1. TB stenosis case: (Speaker TBC) Serdang Malaysia. 2. TB stenosis case: Supparek, Thailand 3. TB stenosis case: Harikishan, India 4. TB stenosis case: (Speaker TBC) Indonesia	Hands on workshop (Rosmadi, Kyle Hogarth, USA) 1. Robotic bronchoscopy 2. navigational bronchoscopy 3. BLVR for COPD 4. IPC, pleural ultrasound, chest tube and biopsy, pleuroscopy 5. Leonardo laser *Hands-on workshops will be conducted using 3D-printed mannequins	Case based discussions Bangladesh (TBC) Indonesia (TBC) (Moderators Dr Rus/Dr Brent Master)		
1515 - 1700	Case Based Discussion 2 (Ng Khai Lip): Malignant airway obstruction. Chair: Eric Daniel Tenda, Indonesia 1. Serdang, Malaysia: Mona 2. Singapore: Arkash 3. India: Tinku Joseph 4. Indonesia: Wahju Aniwidyarningsih			Case based discussion 4 (Tie Siew Teck): Interesting/Challenging bronchoscopy cases: Chair: Jamsak Tscheikuna, Tinku Joseph 1. Airway stent: Arkash, Singapore 2. Chronic total occlusion secondary to TB: Serdang, Malaysia (Speaker TBC) 3. India: Airway fistula: R Mehta, India		Hands On Workshop Foreign body removal – Brent Masters/Su Siew Choo Rigid bronchoscopy with stent insertion/removal – Mohammad Ashkan Moslehi /Mariana Cryotherapy in foreign body removal-Dr Tinku Joseph/Dayang Zuraini Difficult intubation-Rahul Thomas/Eg Kah Peng		

				4. Fire in the airway: Tinku Joseph, India				
2000-2130	Faculty dinner			Conference dinner and cultural show				

*TBC – To be confirmed

* The scientific program will be updated regularly. Please visit the Facebook page as well.
